- ▶ HISkon® Cable Assembly
- ▶ HISconnect® PV Connectors

If you have any questions or need further information please do not hesitate to contact us. Our experienced engineers provide comprehensive advice, from the planning through to the monitoring of your finished system.

► HIKRA® Solar Cables

Boost the yield of your system with low-loss and long-lasting HIKRA® Solar Cables. We are happy to help you select a cable that meets your requirements. From the cost-effective standard cable all the way to the premium cable with its 25-year warranty.

- HIKRA® PRO – standard cable
- HIKRA® PLUS – direct burial
- HIKRA® S – premium cable

Special Cables

- Potential equalization cables
- Data cables
- Underground cables (NAYY/NYY)
- Medium voltage cables

Simple, reliable and cost-effective:
HISkon® Cable Assembly

► HISconnect® Plug Connectors

HIS will help you select the right plug connector systems and supplies connectors from all the major manufacturers.

► Tools & Accessories

High-quality workmanship of all components is a prerequisite for the safe and efficient operation of your PV system. With the modular HIS tool system consisting of a crimping pliers, crimp insert and locator, you are well equipped for virtually all standard plug connector systems.

- Crimp tools
- Accessories
- Cable conduits
- Cable glands

CUSTOMER-SPECIFIC SOLUTIONS

► HISkon® Cable Assembly

Minimize the amount of installation work and unnecessary cable cutting with customized ready-to-plug cables for your system. You will always have the optimum cable fitted the correct connector in accordance with the manufacturer's certification, VDE, TÜV and/or UL.

- Endless chains
- Extensions
- String diodes
- Inline fuses
- Assembly sets
- Pre-assembled potential equalization cable
- Pre-assembled data cable
- Battery cable

► HISbox® Stringboxes

Maximize your system's security and profitability with DC/AC String Boxes from HIS. Thanks to efficient and logical switches as well as optimum protection against power surges, lightning strikes and leakage currents, our customized HIS String Boxes guarantee seamless performance monitoring and alarm functions for a rapid response capability.

- HISbox® DC Combiner
- HISbox® Monitoring
- HISbox® AC Combiner
- HISbox® Overvoltage protection for communication
- Fire protection
- Isolation switches DC/AC
- Grid and plant protection
